

**B**elow is the \*itinerary planned for our upcoming conference & tour. The itinerary has been arranged with the desire to personally introduce you – our guests – to Israel and the ministries of **Tents of Mercy, Revive Israel & Tikkun International**. In addition to professional guides, members of our ministry teams will be together with you on the buses and at the sites to teach and answer questions. As you travel and fellowship with us, we pray that you will see what it is like to live and minister in Israel and more importantly, that God will show you His heart and purposes for the land and people of Israel in these end times.
